Management Discussion and Analysis Report

The purpose of this discussion is to provide an understanding of financial statements and a composite summary of performance of our business.

Management Discussion and Analysis (MDA) is structured as follows:

- Overview of Indian Economy
- Industry Overview
- Financial Performance and Highlights
- Internal Control Systems and adequacy
- Material Development in Human Resources

Overview of Indian Economy

The Economic Survey 2008-09 presented to Parliament today by the Finance Minister Shri Pranab Mukherjee says, the speed at which the Indian economy returns to the high growth path in the short term depends on the revival of the economy, particularly the US economy and the Government's capacity to push some critical policy reforms in the coming months. It says, if the US economy bottoms out by September 2009 there would be good possibility for the Indian economy repeating its 2008-09 performance i.e. around 7.0 +/- 0.75 per cent in the fiscal 2009-10 (assuming a normal monsoon). However, in the event of a more prolonged external economic downturn, the revival of the global economy/US economy being delayed until 2010, the growth may moderate to the lower end of the range.

It says the recovery is likely to be assisted by the likely developments in the external sectors. The declining trend in trade deficit suggests that with reasonable invisible account surplus, which has been an attribute of Indian economy for the last several years economy may end up with a current account surplus of 0.3 to 2.8 per cent of GDP in 2009-10.

The Survey says, the prospects of Indian economy are somewhat different from most other countries. A large domestic market, resilient banking system and a policy of gradual liberalisation of capital account have been key factors. The Survey says a major concern at this stage though not entirely unexpected is a sharp dip in the growth of private consumption. Four factors seem to have contributed to this slowdown. First, it could be due to the wealth effect, resulting from decline in the equity/property prices. Secondly, the uncertainty in the labour market and some decline in employment. Thirdly, cutbacks in consumer credit by private banks, NBFCs and other lenders. Fourthly, during slowdown a dominance of precautionary motive may induce consumer to either defer their spending decisions or shift to unbranded alternatives.

Financial Industry Overview

The company is mainly into investing , acquiring and holding shares, stocks, debentures, debenture stocks, bonds, warrants, obligations/and/or other securities issued or guaranteed by any company constituted or carrying on business in India and/or by any Government, state, public body-or authority.

The Company is also engaged in the business of financing, assisting, helping, supporting, promoting companies, firms, businesses, associations, concerns, corporations, partnership, individual or organization in the setting up, running, working, functioning, managing, conducting, operating of any commerce, industry, trade, business, profession etc. through loans and advances .As part of its strategy to expand business from this segment, it also advances deposits or lends money against securities and properties to or with any company, firm, person or association on such terms as may be determined, from time to time, and to lend and negotiate loans and every description and to transact business as financiers.

The Company offers specialized solutions for meeting specific liquidity requirements with technical insights into capital markets. Capital markets at present are going through turbulent times due to slow-down in domestic economy, slow-down in reforms, uncertain global economic environment, economic crisis faced by a few countries in Europe, fluctuations in currency rates, etc. Although the inflation has remained steady during the year but it is still under pressure due to hike in petrol prices, burden of diesel subsidies, high fiscal deficit, etc. However, we feel that the opportunities will soon arise in the markets upon the corrective policies by the government and better fiscal management which will strengthen the economy.
