The Board of Directors of
M/s Consecutive Investments & Trading Company Limited
Kolkata-700013

LIMITED REVIEW REPORT ON THE UNAUDITED FINANCIAL RESULTS OF THE COMPANY FOR THE QUARTER AND YEAR ENDED 31ST MARCH, 2015

We have reviewed the accompanying statement of unaudited financial results of M/s **Consecutive Investments & Trading Company Limited** for the quarter and year ended 31st March, 2015, being submitted by the Company pursuant to the requirements of Clause 41 of the Listing Agreements with the Stock Exchanges, except for the disclosures regarding 'Public Shareholding' and 'Promoter and Promoter Group Shareholding' which have been traced from disclosures made by the management and have not been audited by us. This statement is the responsibility of the Company's Management and has been approved by the Board of Directors. Our responsibility is to issue a report on these financial statements based on our review.

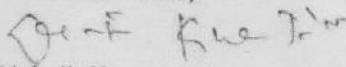

We conducted our review in accordance with the Revised Standard on Review Engagements (SRE) 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity", issued by the Institute of Chartered Accountants of India (ICAI). This standard requires that we plan and perform the review to obtain moderate assurance as to whether the financial statements are free of material misstatement. A review is limited primarily to inquiries of company personnel and analytical procedures applied to financial data and thus provide less assurance than an audit. We have not performed an audit and accordingly, we do not express an audit opinion.

Based on our review conducted as above, nothing has come to our attention that causes us to believe that the accompanying statement of unaudited financial results prepared in accordance with the Accounting Standards specified under Section 133 of the Companies Act, 2013 read with Rule 7 of the Companies (Accounts) Rules, 2014 and other recognized accounting practices and policies has not disclosed the information required to be disclosed in terms of Clause 41 of the Listing Agreements with the Stock Exchanges including the manner in which it is to be disclosed, or that it contains any material misstatement.

eye greater share gun manufacture

based BAE is selecting an partner to assemble imported M777 guns PHOTO: BLOOMBERG

panies like L&T have deli-space-grade titanium parts an defence systems. Other vendors also claim they could 1777 components in India chnology transferred from

so, building M777 compo-nd systems in India would the government to look the current 145-gun contract ice BAE with a larger con-ised on India's expansive needs.

current 145-gun tender quip only 6-7 artillery regi-elonging to two newly raised in divisions. This is only a art of the army's need for -millimetre guns in 50-plus regiments in 16 mountain is. This 1,000-gun order e a lip-smacking prospect uld entice BAE to offer far ndigenisation.

Modi threw out the pro-nt procedure in buying fighters from France. ly, by deviating from the rnder and insisting upon ndigenisation in exchange 00-gun contract, 'Make in ould be galvanised in gun tion', says an Indian company CEO.

has signed agreements with Indian companies to dis-ts offset liability in the M777 , worth about ₹1,400 crore. this is believed to be unre-the M777.

in military doctrine involves down long-range artillery he enemy, pulverising tar-

gets so comprehensively that infantry or tanks attacking them face little resistance, suffering far fewer casualties. On battlefields over the last century, artillery has killed more troops than any other arm.

To do so, the artillery policy envisages a large number of 155-millimetre guns, which fire heavier and more lethal shells than the 105-millimetre and 130-millimetre field guns that equip most artillery regiments.

India's current 155-millimetre gun arsenal is confined to 490 FH-77 Bofors guns. In addition the OFB has just won a contract to build 114 155-millimetre, 45-calibre guns, which could rise to 414 guns if they perform well. Meanwhile, the Defence R&D Organisation (DRDO) is partnering domestic firms in developing a new 155-millimetre, 52-calibre gun in the Advanced Towed Artillery Gun (ATAG) project.

Indian generals and defence ministry officials have criticised the M777's high price, but have decided it is worth the cost. The 105-millimetre field guns that the M777 will replace cost about ₹2.5 crore each, one-tenth the M777's ₹25 crore tag. The OFB's 155-millimetre Dhanush gun is half the cost of the M777.

In March/April 2014, then army chief, General Bikram Singh, pronounced the M777 too expensive in a defence ministry meeting. Defence Ministers AK Antony and Arun Jaitley told parliament that the M777 acquisition was stuck because of high cost. Now, without any reduction in cost, the defence ministry has cleared the contract.

India is buying the M777 through the Foreign Military Sales (FMS) programme. In this the MoD is the buyer and the Pentagon is the seller, negotiating terms with the supplier (in this case BAE), and charging the customer a small fee.

The cost of the M777 has risen steadily, as evident from successive notifications that BAE has provided the US Congress. In January 26, 2010, the contract price was \$647 million, which rose marginally in March 2013 to \$694 million. On August 7, 2013, the Pentagon notified the US Congress that the contract was worth "up to \$885 million". Company sources say that, without significant delay, the deal would be signed at about \$700-750 million.
